DERMATOLOGY CLINIC UNIVERSITY OF CATANIA: ACTIVITY REPORT

The Department of Dermatology of the University of Catania, directed by Professor Giuseppe Micali is a complex Unit (UOC) equipped with the proper care requirements and health facilities. These include outpatient clinics for: general dermatology, psoriasis, contact dermatitis and aesthetic medicine, as well as services such as dermatologic surgery, phototherapy and photodynamic therapy, accounting for more than 25.000 annual accesses. There is also an outpatient clinic (only a few in Italy) specialized in contact immunotherapy for the treatment of severe forms of alopecia areata and relapsing multiple warts resistant to standard treatments. The unit is also able to admit daily up to 18 dermatology inpatients (Day Hospital).

GRANT/AWARDS:

Member of the Advisory Board of the European Research Council for the following areas:

ERC: LS4 4 Ageing and LS6 8 Virology.

2001

PRIN Project (Scientific Research Programs of Relevant National Interest)

Title: "Carcinoma of the penis on lichen sclerosus: etiopathogenetic evaluation of the role of infection by Human Papilloma Virus"

Co-funded: University "La Sapienza" of Rome

Duration: 24 months

2003

Policy Research and Development of the Ministry of Health research program

Title: "Autoimmune thyroiditis and skin: molecular mechanisms of skin changes and non-invasive diagnostic tests, co-funded, "

Istituto Dermopatico dell'Immacolata, Rome

Duration: 24 months

2003, 2004, 2006, 2008

Contribution to the goals specified in the notice "Grants for study visits abroad dedicated to eligible research personnel

School of Medicine of the University of Catania"

2007, 2008, 2009

Scholarship Project Psocare Contribution: € 5000
